good. public schools should be closed permanently.

>nigger Fauci the fake doctor

why do you hate your children anon? why are you desperate to get free babysitting 5 days a week? do you not enjoy their company? do you not want them to actually learn anything and instead be indoctrinated into leftism?

Public schools have little value anyway. If they're going to keep the schools closed I want my property taxes that go to them refunded. I'm putting my kids in private school for the next academic year either way.

these jews are trying to destroy as much face to face contact people have as possible so that everyone is isolated and the only things most people will know about politics are what they hear from mainstream internet groupthink sources like twitter and the news

I'm so torn on Fauci. On the one hand he's an overhyped, know nothing doomsayer who would rather ruin the economy then let a bunch of boomers and fatties die from a virus. On the other hand shutting down public schools is only a net positive for children, but it forces people to stay home and work less, making less money, spending less money, etc

Schools are indoctrination centers, but children are autistic little twats who need shit to keep them occupied throughout the day. Otherwise, they'll just harass their and inconvenience their parents as they work their wagic jobs. Which is Fauci and his handler's entire strategy anyway; stress out everyone so they won't notice that YOU are the one fucking up their lives.

its true. for all the shit the catholic church got for being a bunch of kiddie diddlers, kids are much more likely to be touched by public school faculty. but since public school is a leftist institution you never hear a word about that.

Theyre supposed to raise them. Spending all day at work is not natural or right.

I live in Florida which is ground zero, but not Miami. Things are normal here on the gulf coast, you wouldn't even know there was a pandemic going on at all from being down here.

daycare is absurdly overpriced and most people can't stay home with kids all day considering a large majority of people work jobs that cant do WFH (non-office based jobs.)
